Deluxe SL Calf Hutch (Standard Length)

MORE STANDARD FEATURES = MORE VALUE
- Top Sliding Roof Vent
- 3-in-One Rear Door
- 2 Pails
- Choice of Left or Right Side Door
- Pail Manger

What sets this innovative rear feeder apart from the other hutches on the market:
- Designed for large operators to feed calves quickly
- Labour saving$
- Door swings out of the way
- Door can remain open
- Easy access to feed with an ATV, TRUCK, ETC
- Feed stays out of the elements
- Easy to operate, no latches, 3-in-one door snaps shut
- 3-in-one door also has a sliding grill vent
- Easy to Bed

The ONLY Manger with Splash Guard & Pail Stoppers
- Splash guard prevents feed from getting wet, and liquids from getting contaminated
- Pail stoppers prevent pails from being knocked out
- Designed with built-in double-pail holder
- Two rugged poly pails included
- White vs black pails offered – calf starter usage will begin in 1-2 days vs 4 days for black pails
- Inside manger location protects feed... allows calves to continue eating, regardless of outside weather

Available Accessories

**EARLY STARTER BOWL**
Shallow 4” pail for 1st weeks for faster feed consumption for healthier calves.

**BOTTLE**
2 or 3 quart poly bottle with soft rubber nipple.

**SL BOTTLE HOLDER**
Fits 2 or 3 Qt bottles.

**FENCE MOUNT BOTTLE HOLDER**
Fits 2 or 3 Qt bottles.

**NECK STRAP WITH CHAIN**
75” tether pipe & roof eye-bolts

**Calf Hutch Mount Nipple Bucket**
Includes nipple and mounting bracket. Also available with weather cover.

**Outside Feed Weather Cover**
Protects nipple buckets from the weather.

**Hutch Anchor Rods**
1/2” galvanized rebar for anchoring hutch to ground.

**Calf Hutch Lift Kit**
Makes moving hutches a one person job. Top entry point swivels for ether side or end lifting. Works with skid forks or bale spear.

**Agri-Plastics Calf Jacket**
With quick release buckles.

**Calf Fence Panel - Cut**
Made from ¼” diameter hot dipped galvanized steel. 42” H x 72” D x 48” W

**Calf Fence Panel**
Made from ¼” diameter hot dipped galvanized steel. 42” H x 72” D x 48” W

**SLF Storm Door**
For Extreme Weather Conditions
This new model of storm door is used when using an outside wire panel. The SLF Storm Door will stay open against the wire fence. When you want to close it, it locks into place.

**Hutch Anchor Rods**
½˝ galvanized rebar for anchoring hutch to ground.

**Agri-Plastics Storm Door**
For Extreme Weather Conditions
Protects calves from the elements AND no more shovelling out your hutches! Easy to install, fits into place in seconds.

**Front Plastic Pipes**
2 ½” Plastic pipes to keep calves inside.

**Hay Feeder**
Sturdy, poly construction. Bolts to inside side wall of hutch toward rear - includes side door & latch, plus ¼” dia. solid aluminium hinge pin (access opening will need to be cut in side wall).

**Weather Cover**
Protects feed from getting wet from the outside elements. Cover can also be left in the open position for dry seasons without rain or snow.

**Fence Attachment Hardware**
Includes two rods (½” galv. tube) plus four eyebolts (¾” x 2-½” and 1½”) with nuts and washers. (Panel Fence not included)
**Agri-Plastics Group Hutch Features**

- Industry First: **Swing-Up-Rear** Large Bedding Door with integrated rear grill vent.
- Industry First: Molded in one piece for superior strength – no rivets to break loose
- Front ridge top roof vent, rear rotary top vent
- Extra hutch height for longer growth periods.
- Integrated poly skid – will not freeze to ground like wood skid
- 10 Year warranty
- Truly opaque

When calves are raised in calf hutches and then, after weaning are placed with a large group in it causes much stress on the calf. By transitioning weaned calves into a group hutch you will eliminate the competition for food and water, and the calf will adapt to being with others.

Every Agri-Plastics Group Hutch is built to last, we’ve made a thick-walled unit, not thin and flimsy like others.

Feed / Silage Carts

Our carts are made of a heavy duty polyethylene which is roto - molded to create a seamless cart. You will not need to worry about this cart having build ups, rusting or rotting, because like always we design our products with farmers in mind. Our carts are heat, cold, sunlight and leak resistant, not to mention resistant to silage acids and feed additives. Cornering is a breeze with the cart rolling on its powder coated one piece steel frame with 4 ply pneumatic wheels with tubes. The various sizes are beneficial to any farmer no matter how large your operation may be. Cut your feeding time down and make feeding easier.

Footbath

40 Gallons - 32” x 78” x 6” - Black
151.4 l - 81.3 cm x 198 cm x 15.2 cm

Using a poly footbath will benefit your herd in several ways, it will help to prevent hairy warts, foot-rot and heel erosion not to mention other bacteria from creeping into your cow’s hooves. With its cross rib bottom this footbath is designed to spread hooves wider for better penetration. This product is built with a high density polymer with double sided walls making it solid enough that a wood frame is not needed for support. Our footbaths will not rust, rot, puncture or crack, making it a far superior footbath than any other on the market.

Also available: Boot Bath for use in barn doorways.
26” x 18” x 4”, 66 cm x 45.7 cm x 10.2 cm

Poly Silo Clean Chute

Our Poly Clean Chute Funnel is so simple to install, it’s flange is easily adjusted to your silo door size by any type of wood saw. This clog resistant chute is made of polymer plastic which is far more durable than fiberglass. The top and bottom twist & lock collars are made from the same durable polymer and fasten the tubing to the chute with great security. Due to the excellent grip of the collars there is no need to remove tubing when changing silo doors, saving you time and energy!

Poly Brisket Board

Agri-Plastics Poly Brisket Board is a durable solution for any new or existing stall system. Its design is ideal for protecting dew claws and allowing your cattle to extend their legs in a natural manner. Due to the natural curve in the brisket it is strong enough to support your cattle’s weight. The brisket is made of a heavy duty ¼” thick poly that will not crack, chip or splinter. The board comes in 96” (243.8cm) lengths with pre drilled holes along the sides for easy installation.
Agri-Plastics Mfg. is owned and operated by Third Generation Dairymen. It is through hands on experience that Agri-Plastics develops and tests their products.

Agri-Plastics mission is to offer the best quality products for the farming industry by designing products that meet the customers expectations, while establishing a world reputation for reliability and durability.
